

Project: Candy Cane Vase
Source: My Eco Chic Wedding

Project Description

This adorable candy cane vase will add the perfect festive touch to your Christmas season wedding. Place one on each table and fill with red roses.

Your guests can help themselves to the candy canes during the evening or a few lucky guests can take the complete vase home to use for holiday entertaining. If you plan on playing wedding games during your reception, these make great prizes.

Materials List:

- Cylindrical vase or clean empty can
- Two sided tape (found at most hardware or scrapbooking stores)
- Rubber band
- Candy canes
- Wide ribbon (must be wider than rubber band)
- Roses

Instructions:

1. Wrap the two sided tape around the vase/can once approximately halfway down the vase/can. (The two sided tape will help keep the candy canes from sliding out from under the rubber band.)
2. Slide rubber band around the vase/can.
3. Begin inserting the candy cans behind the rubber band.
4. Tie the ribbon around the vase/can taking care to cover the rubber band with the ribbon.
5. Fill with water and arrange roses.

Another "Bride Idea": Use mini candy canes and baby food jars or small fruit cup cans to create small individual vases which can serve as place cards. Just attach a label with your guests' names to the ribbon.
